

# BLUEBERRIES

## VARIETIES FOR 2020

<b>AURORA</b>	Medium berries ripen just slightly after Elliot. Nice sweet flavor. Easy to grow, with a slightly spreading habit.
<b>BERKELEY</b>	Vigorous, productive bush with spreading habit yields large, firm berries excellent for dessert and freezing.
<b>BLUEBERRY GLAZE</b>	Newer variety with dwarf, bushy habit to 3' tall & wide, perfect for container culture. Berries in midsummer feature excellent, aromatic flavor.
<b>BLUECROP</b>	The standard of excellence with large fruit and good flavor. Great fresh, and sparse foliage makes for easy picking. Yields 12-20lbs/bush, ripening mid-July.
<b>BLUEGOLD</b>	Med-sized shrub at 4-5' with med-sized, high quality berries that keep up to 5 weeks in storage. One of the latest to ripen, typically yields 12 lbs.
<b>BLUEJAY</b>	Large shrub at 5-7' with open habit and superior vigor produces slightly tart, med. to large-sized berries perfect for baking and fresh eating. Yields 10-20 lbs.
<b>BLUERAY</b>	Large fruit with sweet-tart flavor, excellent quality. Vigorous, multicaned bush with brilliant red fall color. Self-fruitful. Ripens early to mid-season.
<b>BOUNTIFUL BLUE</b>	Prolific producer of large, super-sweet berries. Semi-evergreen with compact, semi-dwarf habit and attractive blue foliage. Midseason.
<b>BRUNSWICK</b>	A low bush variety forming a dense mat 8-12" tall and 3-4' wide. Pea-sized fruit with sweet, wild flavor. Good fall color. Zones 3-7.
<b>BURGUNDY</b>	Vaccinium specialty. A standout selection from Maine with distinctive gray-green foliage, burgundy new growth, and light blue berries in summer. Growth is compact, about 3 ft. wide by 1 ft. tall. Deep burgundy fall color.
<b>CABERNET SPLASH</b>	Edible AND ornamental! Three seasons of interest with flowers, fruit, and blazing red fall color. Upright habit to 3-4' tall and wide. Early to mid-season.
<b>CHANDLER</b>	Mid to late season. Giant fruits the size of cherries! Delicious flavor, long ripening season over six weeks. Vigorous shrub to 5-6 feet tall. Zones 4-7.
<b>CHIPPEWA</b>	Mid-season. Medium to large berry with excellent, sweet flavor. Compact upright growth to 3-4'. Foliage turns brilliant red in autumn.
<b>DARROW</b>	Very large fruits with excellent flavor. Vigorous, upright bush growing 5-6' tall. Good variety for the P.N.W. Yields 8-15 lbs, ripens early August.
<b>DRAPER</b>	Med-sized, sweet berries with thick skins that have a nice, crisp texture. Highly productive. Vigorous, upright shrub grows 5-6'.
<b>DUKE</b>	Medium berries with mild flavor and good quality. Very productive, multi-caned bush growing 4-6' tall. Good for fresh eating and processing. Ripens early.
<b>EARLIBLUE</b>	One of the first to ripen. Nice, medium-size, sweet berries, 8-15 lbs. per bush. Upright growth habit reaching 4-6'.
<b>ELLIOTT</b>	Very late season. Medium, firm blue fruit with mild aromatic flavor. Upright growth to 4-6', with deep red and wine colored foliage in the fall.
<b>EMERALD</b>	Vigorous, upright shrub to 5-6' produces large, firm berries with excellent flavor. Mid-season.
<b>HERBERT</b>	Very large, dark blue fruit with classic sweet-tart flavor. Semi-dwarf plants are easy to harvest, great for home gardeners. Late ripening.
<b>IVANHOE</b>	Mid-season. Very large fruit, heavy bearer. Firm, crisp fruit with a delightful, sweet-tart flavor. Good dessert quality and resists cracking. Vigorous, tall, upright bush.

## VARIETIES FOR 2020 CONTINUED

<b>JELLYBEAN</b>	Newer, dwarf variety, compact and rounded, to 2' tall and wide, ideal for pots or hedging. Ripens late July into August. Deciduous.
<b>JERSEY</b>	Small to medium, juicy berries. Mild flavor. Vigorous, semi-upright plant to 5-7' with red wood and yellow fall color. Ripens late August.
<b>JEWEL</b>	Large, firm fruit ripens early. Great producer!
<b>LEGACY</b>	Medium-large, light-blue fruit with robust flavor. Leaves are partially evergreen, with light fall hues. Plant is upright, reaching 6' at maturity. Late season.
<b>LIBERTY</b>	Attractive fruit with outstanding firmness. Fast growing and upright. Reaches 4-5'.
<b>MISTY</b>	Large, firm fruit with excellent flavor on a tall, narrow shrub. Early ripening.
<b>NORTHBLUE</b>	Huge, firm, dark blue fruit with high quality, wild blueberry flavor. Yields 3-7 lbs. Handsome, dwarf shrub to 2' with glossy green leaves and deep red fall color.
<b>NORTH-COUNTRY</b>	Medium-sized fruit with sweet, wild flavor. Grows 18-24" tall and 30-40" wide. Sky blue flowers. Yields 2-7 lbs. Ripens mid-July.
<b>NORTHSKY</b>	Small to medium fruit with excellent wild flavor. Low, spreading plant 10-18" tall by 24-36" wide. Yields 1-2lbs. Very hardy, with red fall color. Ripens mid-July.
<b>O'NEAL</b>	Best flavor of the Southern Highbush varieties with large fruit summer to early fall. Evergreen foliage in mild winters, turns scarlet before falling in cold ones.
<b>PATRIOT</b>	Large berries with superior flavor. Upright to 4-6' tall with red wood. Yields 10-20 lbs, usually picked twice a season. Only variety resistant to <i>Phytophthora</i> . Tolerates wet, clay soils. Ripens early July.
<b>PEACH SORBET</b>	Compact dwarf offers year-round interest AND delicious fruit. Winner of the prestigious 2012 New Varieties Showcase at the Farwest Flower and Garden Show.
<b>PINK LEMONADE</b>	Attractive ornamental qualities, compact habit, as well as delicious, unusual pink fruit make this a great choice for the home garden.
<b>POLARIS</b>	Early season. Medium, firm, sweet fruit. 3-4' compact upright growth. Perfect as an early ripening companion to Chippewa or Northblue.
<b>REKA</b>	Early season. Well suited for the PNW, with exceptional flavor and vigorous upright growth to 4-6ft.
<b>SPARTAN</b>	Large, firm fruit with excellent flavor. Superb fresh or in pies. Vigorous, upright bush with red wood. Prefers light, well drained soil. Ripens early.
<b>SUNSHINE BLUE</b>	Medium-sized, tangy fruit. Evergreen, compact shrub to 3' tall. Self-fruitful. Yields 5-10lbs. Excellent for patio planters and specimen plants. Ripens in mid-July.
<b>SWEETHEART</b>	The first rebearing blueberry! Large, sweet berries in June, frequently repeating in August. 15 lbs per bush. To 6' tall and wide.
<b>TOP HAT</b>	Medium to large fruit with good flavor. Very small bush to 16-24" tall and 12-24" wide. Crimson fall color. Self fruitful. Perfect for containers.
<b>TORO</b>	Very large fruit of excellent quality. Tolerant of fluctuating temperatures. Hot pink flowers mature to white. Ornamental growing 4-6' tall. Ripens mid season.
